To purchase straws, please contact us with which bucks and how many straws you are interested in so we can confirm it is available. Semen is not considered sold until it is paid in full via PayPal or check. If the semen is not picked up within two months (unless other arrangements having been arranged and agreed on), the ownership of the semen reverts back to us. After two months we will charge a per month storage fee.

We keep the semen on farm and are able to accommodate shippers being sent to us or we can transport semen to ADGA National Shows, ADGA Conventions or other events we are attending. I will not transport semen to shows I am attending as a judge.

Interested in semen from a buck we own that is not listed? We do keep a notification list for those interested in semen from our bucks not yet listed or pending another collection. Please contact us with the bucks you are interested and we can contact you when straws are available.
